Project: 2020 Siren Replacement

We understand the Village would like to replace the five (5) existing emergency notification sirens at their current locations. In addition, the Village would like to install a new emergency notification siren, pole, and associated equipment in the vicinity of Cornerstone Subdivision. It is assumed that no new easements will be required for the existing siren locations, and that the new siren will be placed within the recently dedicated Village right-of-way for Cornerstone Parkway or within adjacent Village property.

Scope of Services

The work required consists of the following tasks:

- ◆ GHA will prepare bid documents and provide an EOPC for the proposed scope of work.
- ◆ GHA will assist the Village with coordination of the project letting and assist the Village with reviewing bid tabulations and making a recommendation for award.

Estimate of Manhours and Fee

Billing for the project will be on a time and material basis with an estimated budget of \$6,000.00. This fee will not be exceeded without written prior approval of the Village. We anticipate an April 2020 bid opening.
